62 028 00 Wooden spits

Instructions:

- 1 Roll out the modelling material to a thickness of about 3 - 4 mm.
- 2 With the help of a ruler and a craft knife, cut out the houses. Then use a wooden spit to pierce a hole at the top for suspension.
- 3 Stamp the word HOME using the stamp Letters & Numbers and insert the heart using the wooden spit or the paintbrush handle. Design the windows and doors using the square-edged object. Allow the motifs to dry out for about 1 – 2 days, weighing them down with a flat object to ensure remaining them flat.
- 4 Apply Rub Ons and decorative metallic flakes according the instructions supplied. Cut the warp thread to size and tie it in a knot to use as a suspension hook.
